Something for Everyone

NU-Oberflächen sind in einer nahezu unbegrenzten Auswahl an Farben und Oberflächen erhältlich, die mit dem Metallmuster des gewünschten Armaturenherstellers übereinstimmen. Die Farbkoordinaten werden über ein 3-dimensionales Farbfotometer extrahiert. Die Werte werden nun berechnet, der Spiegel in eine Kammer gelegt und der PVD-Prozess beginnt. Die Farbanpassung ist mit jeder vorgesehenen Oberfläche kompatibel.

(Unten sehen Sie nur einen Querschnitt einiger unserer beliebtesten Oberflächen) /

NU colors are available in an almost endless variety of surface colors that conform to the metal swatch obtained from the desired faucet manufacturer.

Color coordinates are extracted via a 3 dimensional color photometer. The values are now calculated, the mirror placed in a chamber and the PVD process begins. Color match is compatible with any provided designated finish.
